EXPERIENCE

Data Analyst Intern January 2026 - Present
Alpha 20 Group, Cincinnati, OH

- Clean, organize, and analyze data from various sources to identify trends, patterns, and insights that support business decision-making.
- Create visualizations, dashboards, and reports using tools like Excel, SQL, Tableau, or Power BI to communicate findings to stakeholders.
- Learn and apply statistical methods, automate repetitive tasks, and develop technical skills through mentorship and hands-on experience.

Research Intern - Cybersecurity & AI May 2025 - August 2025
Discovery Lab Global Polaris Prime Program, Cincinnati, OH

- Performed root cause analysis using AI-based tools to address 10+ real-world cybersecurity issues
- Authored and compiled a 200+ page technical document synthesizing research on 20+ implementation of AI
- Drove the full AI development lifecycle utilizing Copilot, from ideation and data preparation to model evaluation and iteration

Data Analyst Intern May 2024 - August 2024
Ventek IT Solutions, Cincinnati, OH

- Cleaned and standardized over 50,000+ records across multiple datasets, improving data accuracy by 25%
- Automated data cleaning workflows using SQL and Python, reducing manual effort by 40%
- Validated data from 5+ different sources, ensuring 100% consistency in key business reports

PROJECTS

Machine Learning Project – Health Insurance Prediction October 2025 - November 2025
Remote

- Developed and tested a machine learning regression model using Python and scikit-learn, achieving an R^2 score of 0.84
- Conducted Exploratory Data Analysis (EDA) to identify key cost drivers, finding that smoker status and BMI were the most significant predictors
- Created an interactive Power BI dashboard visualizing insights, model performance metrics, and the top five predictive features

Data Analysis and Reporting October 2025
Remote

- Cleaned and joined multiple datasets in Tableau using keys to ensure data accuracy across 50,000+ records
- Designed interactive visualizations to uncover key pricing and demand factors
- Built a user-friendly Tableau dashboard integrating multiple views for real-time, filter-based data exploration

Data Modelling and Data Management September 2025
Remote

- Designed and implemented relational data models to organize business data efficiently across multiple systems
- Developed entity-relationship (ER) diagrams to visualize data flow and maintain referential integrity
- Collected, cleaned, and validated large datasets from multiple sources to ensure data accuracy and reliability

Data Visualization, Intel Corporation May 2025 - June 2025
Remote

- Designed and developed interactive Power BI dashboards to visualize sustainability metrics across 15+ KPIs, enhancing executive reporting and decision-making
- Applied data modeling, DAX calculations, and dynamic visuals to deliver storytelling reports that improved stakeholder engagement and global communication clarity

Landing Page Development, charity: water May 2025 - June 2025
Remote

- Developed a responsive and accessible page for charity: water using HTML/CSS vibe coding to boost donor engagement
- Engineered mission-driven design using vibe-coding HTML/CSS and reduced redundant code by 40%
- Prototyped a 3-section landing page with responsive elements optimized for desktop viewpoints

SKILLS

Technical: Data Analysis, Microsoft 365, Data Management, Data Visualization, Data Modelling, Data Cleaning, KPI Dashboard Design, Cloud Computing (AWS), Git, EDA, Data Validation, Regression (basic)
Tools: Power BI, GitHub, Tableau, SQL Server, Jupyter Notebook, Snowflake, VS Code, Microsoft Excel, SharePoint, Teams
Programming: Python (Pandas, NumPy, Scikit-Learn), R, SQL, C++, JavaScript, LabVIEW, MATLAB

Available to Co-op: Summer 2026 and Fall 2026

EDUCATION

Bachelor of Science in Computer Science, Minor: Business Analytics Expected Graduation: May 2028

University of Cincinnati, Cincinnati, OH

- GPA: 3.6
- Dean's List
- Coursework: Data Structures, Information Security, Discrete Structures, Computer Science 1, Engineering Design & Thinking

EXTRACURRICULAR ACTIVITIES

Student Member September 2025 - Present

University of Cincinnati IEEE, Cincinnati, OH

- Engage in technical workshops and seminars to expand knowledge of cutting-edge technologies
- Develop teamwork skills by coordinating peer projects and competition entries
- Enhance chapter discussions by presenting and critiquing current research topics

Assistant, Volunteer April 2023 - December 2024

Kumon Math and Reading Center, West Chester, OH

- Guided 300+ students in math/reading by troubleshooting digital platform issues and maintaining consistent operations
- Streamlined grading and record-keeping by organizing workflows and using Kumon's tracking system
- Supported data entry processes, improving record-keeping efficiency by 20%

CERTIFICATIONS

Power BI Essential Training (2024) - LinkedIn Learning October 2025

Data Visualization - The Global Career Accelerator June 2025

AI Professional Skills - The Global Career Accelerator August 2025

Microsoft Office Specialist: Outlook Associate (Office 2019) - Microsoft December 2023

Available to Co-op: Summer 2026 and Fall 2026
